

*Take the Work Out of Paperwork*

## **About Quik!**

Quik! is a provider of forms automation and management solutions for companies looking to maximize efficiency and productivity. Its technology is simple and easy to use, reducing the time and hassle of paperwork and empowering users to do their best work. Each form is fillable, interactive, secure and signable, allowing Quik! customers to collectively save thousands of trees per year. Quik! API and App solutions feature an unparalleled standard definition of more than 500,000 fields and an extensive library of more than 34,000 forms that are easily integrated with CRM and other systems. Founded in 2002 by business consultant and entrepreneur Richard Walker, Quik! helps the top firms in the financial industry improve their bottom line.
